

CURRICULUM VITAE

Scott E. Cassar, M.D.

Reston Radiology Consultants, P.C.
1800 Town Center Drive, #115
Reston, Virginia 20190
703-726-1388

EDUCATION:

- 7/2010 – 6/2011 MASSACHUSETTS GENERAL HOSPITAL
Fellowship – Abdominal Imaging
Boston, Massachusetts
- 7/2006 – 6/2010 UNIVERSITY OF ROCHESTER MEDICAL CENTER
Residency – Diagnostic Radiology
Chief Resident – 2008 - 2010
Rochester, New York
- 7/2005 – 6/2006 UNITY HEALTH SYSTEM
Affiliated with University of Rochester Medical Center
Internship – Internal Medicine
Rochester, New York
- 8/2001 – 5/2005 UNIVERSITY OF ROCHESTER SCHOOL OF MEDICINE
Doctor of Medicine, May 2005
Rochester, New York
- 9/1991 – 5/1996 MICHIGAN STATE UNIVERSITY
B.S. High Honors, Chemical Engineering – College of Engineering
B.S. High Honors, Biochemistry – College of Natural Science
East Lansing, Michigan

LICENSURE:

Virginia #0101249042
Massachusetts #242982

CERTIFICATION:

American Board of Radiology – Diagnostic Radiology, 2010

HONORS:

Chief Radiology Resident, 2008 – 2010
Excellence in Interventional Radiology Award, 2010
Graduate Medical Education Committee, 2008 – 2009
RSNA/ARRS Introduction to Research Scholar, 2007
Recipient of the Outstanding Intern Award, 2006
Offices for Medical Education Biological Sciences Award, 2002
Eli Lilly Chemical Engineering Competition Scholarship, 1995
Valedictorian – Holly High School, Holly, Michigan, 1991

RESEARCH EXPERIENCE:

7/2004 – 6/2009

UNIVERSITY OF ROCHESTER MEDICAL CENTER

Department of Imaging Sciences, Rochester, NY

- Isolated the most responsive Hypoxia-Response-Element-Green-Fluorescent-Protein-labeled EMT6 cancer murine cell line using PGE₂ and photodynamic therapy.
- Injected murine cancer cells into mice and extracted resultant tumors to study drug pharmacokinetics in relation to the vascular and cell proliferation architecture.

5/2002 – 8/2002

UNIVERSITY OF ROCHESTER MEDICAL CENTER

Department of Hematology, Rochester, NY

- Studied the binding interaction between IL1- β and fibrinogen.

8/1996 – 8/2001

ECOSYNTHETIX, INC., Lansing, MI

Staff Engineer

- Discovered a solution to a material handling issue enabling the possibility of scale-up. Researched and found a catalyst that decreased the reaction time considerably and resulted in a higher conversion to product.
- Designed a unique process to produce drum scale quantities of monomer and emulsion polymer on a pilot scale. Purchased and assembled the equipment; supervised electrical and mechanical support staff.
- Directed the industrial scale manufacturing of the monomer and emulsion polymer.
- Produced novel acrylic latex emulsions for use as environmentally friendly adhesives. Conducted biodegradation and compost studies.
- Guest lecturer in an undergraduate level chemical engineering materials course on selected topics at Michigan State University. Wrote homework/exams, graded tests/papers, and held office hours/review sessions. Mentored students with honors projects.
- Developed a new ink, US patent 6,355,734.

5/1994 – 8/1995

MICHIGAN STATE UNIVERSITY

College of Natural Science, East Lansing, MI

- Improved the existing procedure to recover radio-labeled CO₂ from compost.
- Produced and concentrated ligninase from a cultured fungus.
- Infected insects with a baculovirus and monitored their condition daily.

PROFESSIONAL EXPERIENCE:

Staff Radiologist, Reston Radiology Consultants
1800 Town Center Drive, #115
Reston, Virginia 20190
7/2011 – Present
