

## RIS/PACS HIPAA USER AGREEMENT

### INTRODUCTION

Reston Radiology Consultants is pleased to introduce our RIS (Radiology Information System) PACS (Picture Archiving and Communications System) web portal at <https://reach.restonradiology.com/webaccess>. This gives you internet access to your patients' diagnostic reports and images. By simply obtaining a unique user name and password, we are confident that you will find access to your patients' records is easy and straightforward.

When using the Reston Radiology Consultants' RIS/PACS web server to access health information about an individual patient, federal and state laws require that appropriate steps are taken to protect against the unauthorized use and disclosure of Protected Health Information ("PHI"). The Health Insurance Portability and Accountability Act ("HIPAA") allows health information concerning individual patients to be disclosed to another health care provider for purposes relating to the medical treatment of the patient.
